*Spirit of
Truffles*

From the collaboration between *Aluxion Alliance* and the *Marzadro* Distillery, a fine GIN was born under the ancient brand *Vernisse et Vitterra - Spirit of Truffles*, created from the infusion of nine natural botanicals and real Alba White Truffle.

The mystique and quality of the Italian artisan tradition meets the innovation of the infusion of the Alba White Truffle for a synaesthetic experience truly worth discovering.

A spirit made with passion, with expert craft, in a minimalist packaging that represents the search for the essential; inspired by the simplicity of nature and the purity of precious metals, it celebrates the finest truffles - the unmistakable protagonist of this GIN.

SPIRIT OF TRUFFLES GIN

The combined experience of the *Aluxion* team, with their proprietary method for infusion of Alba White Truffles, and the *Marzadro* Distillery, thanks to years of experimentation with the distillation of the most diverse botanicals, has given birth to a sumptuous and exclusive product.

It's a fresh and classic distillate that at the same time offers heavenly aromas of the White Alba Truffles and the spring nuances of botanical Gin. It presents a new experience that surprises an appreciative public, and brings together both the palates of true GIN lovers, and those who seek a taste of an excitingly new spirit.

THE WHITE TRUFFLES OF ALBA

To make *Spirit of Truffles Gin*, the finest specimens of this prestigious protagonist of the Italian culinary tradition are carefully gathered and selected: the White Alba Truffle (*Tuber Magnatum Pico*), one of nature's rarest fruits.
